SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product Identifier
Product form : Mixture
Product name : Ammonium Polyphosphate Solution
Product code : POLY10, POLY11
Synonyms : POLY, COMPEN

1.2. Relevant identified uses of the substance or mixture and uses advised against
Use of the substance/mixture : Agricultural chemical
Animal feed
Industrial use

1.3. Details of the supplier of the safety data sheet
PCS Sales (USA), Inc.
1101 Skokie Blvd.
Suite 400
Northbrook, IL 60062
T 800-241-6908 / 847-849-4200

Suite 500
122 1st Avenue South
Saskatoon, Saskatchewan Canada S7K7G3
T 800-667-0403 (Canada) / 800-667-3930 (USA)

SDS@PotashCorp.com - www.PotashCorp.com

1.4. Emergency telephone number
Emergency number : 800-424-9300
CHEMTREC

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

GHS-US classification
Not classified

2.2. Label elements

GHS-US labeling
Labeling : GHS/Hazcom 2012 Labeling: Not hazardous according to the established criteria.
Supplemental labeling : As with all chemicals, avoid contact with eyes, skin, and clothing.
Wash thoroughly after handling.

2.3. Other hazards
Other hazards not contributing to the classification : Hazardous to the aquatic environment
SECTION 3: Composition/information on ingredients

3.1. Substances
Not applicable

3.2. Mixture

SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures general : If medical advice is needed, have product container or label at hand.
First-aid measures after inhalation : If inhaled, remove to fresh air and keep at rest in a position comfortable for breathing. Give oxygen or artificial respiration if necessary. Obtain medical attention if breathing difficulty persists.
First-aid measures after skin contact : Wash skin thoroughly with mild soap and water. Obtain medical attention if irritation develops or persists.
First-aid measures after eye contact : Immediately rinse with water for at least 15 minutes while holding the eyelids wide open. Obtain medical attention if irritation develops or persists.
First-aid measures after ingestion : Do not induce vomiting. Seek medical attention if a large amount is swallowed. Get medical advice and attention if you feel unwell.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries : Irritation to eyes, skin and respiratory tract.
Symptoms/injuries after inhalation : None expected under normal conditions of use. Overexposure may be irritating to the respiratory system.
Symptoms/injuries after skin contact : May cause mild skin irritation.
Symptoms/injuries after eye contact : May cause eye irritation.
Symptoms/injuries after ingestion : If a large quantity has been ingested : Abdominal pain. Diarrhea. Nausea. Vomiting.

4.3. Indication of any immediate medical attention and special treatment needed
No additional information available

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media : Not flammable. Use extinguishing media appropriate for surrounding fire.
Unsuitable extinguishing media : None known.
5.2. Special hazards arising from the substance or mixture

Fire hazard: If involved in a fire the following toxic and/or corrosive fumes may be produced by thermal decomposition: Ammonia.

Explosion hazard: Product is not explosive.

Reactivity: Stable at ambient temperature and under normal conditions of use.

5.3. Advice for firefighters

Firefighting instructions: Keep upwind. Under conditions of fire this material may produce: Ammonia.

Protection during firefighting: Wear full fire-fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA).

Other information: Do not allow run-off from fire fighting to enter drains or water courses.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

6.1.1. For non-emergency personnel

Protective equipment: Wear suitable protective clothing, gloves and eye/face protection.

Emergency procedures: Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Ventilate area.

6.1.2. For emergency responders

Protective equipment: Wear suitable protective clothing, gloves and eye/face protection.

Emergency procedures: If possible, stop flow of product. Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Ventilate area.

6.2. Environmental precautions

If spill could potentially enter any waterway, including intermittent dry creeks, contact the U.S. COAST GUARD NATIONAL RESPONSE CENTER at 800-424-8802. In case of accident or road spill notify CHEMTREC at 800-424-9300. In other countries call CHEMTREC at (International code) +1-703-527-3887.

6.3. Methods and material for containment and cleaning up

For containment: Contain any spills with dikes or inert absorbents to prevent migration and entry into sewers or streams. Do not allow into drains or water courses or dispose of where ground or surface waters may be affected.

Methods for cleaning up: Clean up any spills as soon as possible, using an absorbent material to collect it. Collect absorbed material and place into a sealed, labelled container for proper disposal. Practice good housekeeping - spillage can be slippery on smooth surface either wet or dry.

6.4. Reference to other sections

No additional information available

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Additional hazards when processed: When heated, material emits irritating fumes.
Ammonium Polyphosphate Solution
Safety Data Sheet

Precautions for safe handling: Handle in accordance with good industrial hygiene and safety procedures. Avoid contact with skin and eyes. Do not eat, drink or smoke when using this product.

Hygiene measures: Emergency eye wash fountains should be available in the immediate vicinity of any potential exposure.

7.2. Conditions for safe storage, including any incompatibilities
Storage conditions: Store tightly closed in a dry, cool and well-ventilated place.
Incompatible materials: Zinc clad, copper bearing alloys and aluminum.

7.3. Specific end use(s)
Agricultural chemical. Animal feed. Industrial use.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters
No exposure limit value known

8.2. Exposure controls
Appropriate engineering controls: Ensure adequate ventilation, especially in confined areas.
Personal protective equipment: Gloves. Safety glasses.
Hand protection: Impermeable protective gloves.
Eye protection: Protective goggles.
Skin and body protection: Handle in accordance with good industrial hygiene and safety practice. Emergency eye wash fountains should be available in the immediate vicinity of any potential exposure.
Respiratory protection: Not required for normal conditions of use. Use NIOSH-approved air-purifying or supplied-air respirator where airborne concentrations of dust are expected to exceed exposure limits.
Environmental exposure controls: Ensure adequate ventilation, especially in confined areas.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties
Physical state: Liquid
Appearance: Clear
Colour: Dark green
Odour: Ammonia
Odour threshold: No data available
pH: 6
Molecular mass: 132 g/mol ([NH₄]₂HPO₄)
229 g/mol ([NH₄]₃HP₂O₇)
343 g/mol ([NH₄]₅P₃O₁₀)
Relative evaporation rate: No data available
(butylacetate=1)
Melting point: No data available
Freezing point: No data available
Boiling point: > 100 °C (> 212 °F)
Flash point: No data available
Self ignition temperature: No data available
Decomposition temperature: No data available
Flammability (solid, gas): No data available
Vapour pressure: No data available
Relative vapour density at 20 °C: No data available
Relative density: 1.4 - 1.44 at 24 °C (75 °F)
Density: 12 lb/gal
Solubility: Miscible
Log Pow: No data available
Log Kow: No data available
Viscosity: 140 cP at 18.3 °C (65 °F) (POLY11)
Explosive properties: No data available
Oxidising properties: No data available
Explosive limits: No data available

9.2. Other information
No additional information available

SECTION 10: Stability and reactivity

10.1. Reactivity
Stable at ambient temperature and under normal conditions of use.

10.2. Chemical stability
Stable at standard temperature and pressure.

10.3. Possibility of hazardous reactions
Hazardous polymerization will not occur.

10.4. Conditions to avoid
High temperature.

10.5. Incompatible materials
Zinc clad, copper bearing alloys and aluminum.

10.6. Hazardous decomposition products
Ammonia.

**Toxicity:**

Inorganic phosphates have the potential to increase the growth of freshwater algae, whose eventual death will reduce the available oxygen for aquatic life.

**Degradation Products:**

| Biodegradation: | The Phosphorus cycle is well understood. |
| Photodegradation: | No data available. |

**SECTION 13: Disposal considerations**

### 13.1. Waste treatment methods

**Sewage disposal recommendations**: This material is hazardous to the aquatic environment. Keep out of sewers and waterways.
Ammonium Polyphosphate Solution
Safety Data Sheet

Waste disposal recommendations: Place in an appropriate container and dispose of the contaminated material at a licensed site.
Additional information: Dispose of waste material in accordance with all local, regional, national, and international regulations.

SECTION 14: Transport information

In accordance with DOT / TDG / ADR / RID / ADNR / IMDG / ICAO / IATA

14.1. UN number
Not applicable

14.2. UN proper shipping name
Not applicable

14.3. Additional information
Other information: No supplementary information available.

Overland transport
No additional information available

Transport by sea
Ammonium Polyphosphate Solution is classified by the USCG as an NLS under 33 CFR 154 per reference 46 CFR 153 (and MARPOL)

Air transport
No additional information available

SECTION 15: Regulatory information

15.1. US Federal regulations

<table>
<thead>
<tr>
<th>Ammonium sulfate (7783-20-2)</th>

</tr>
</tbody>
</table>

15.2. US State regulations

The following states have an OSH program approved by OSHA. If you are located in any of these states you may be under state jurisdiction rather than federal jurisdiction and your state may have more stringent requirements than OSHA. You should consult your state regulations to ensure compliance.

*The state plans in these states apply only to public sector employers. In these states private sector employers are subject to USOL – OSHA jurisdiction. All other state plans apply to both public and private sector employers.

</tr>
</tbody>
</table>

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all of the information required by the CPR.

**SECTION 16: Other information**

**NFPA health hazard**

: 1 - Exposure could cause irritation but only minor residual injury even if no treatment is given.

**NFPA fire hazard**

: 0 - Materials that will not burn.

**NFPA reactivity**

: 0 - Normally stable, even under fire exposure conditions, and are not reactive with water.

**Other information**

: This product is TSE/BSE (Transmissible Spongiform Encephalopathy/Bovine Spongiform Encephalopathy) free. No animal constituents are used in the manufacture of this product for PCS Sales (USA) Inc. Our product is created through a chemical process.
