SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product form: Substance
Product name: Monocalcium Phosphate (21 % P)
Product code: MCP, MCPAG, MCPBG, MCPC, MCPS
Synonyms: Mono cal, Calcium Hydrogen Phosphate
Product group: Commercial product
Other means of identification: Calcium Phosphate Monobasic

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/preparation: Animal and Poultry Feeds

1.3. Details of the supplier of the safety data sheet

PCS Sales (USA), Inc.
1101 Skokie Blvd.
Suite 400
Northbrook, IL 60062
T 800-241-6908 / 847-849-4200

Suite 500
122 1st Avenue South
Saskatoon, Saskatchewan Canada S7K7G3
T 800-667-0403 (Canada) / 800-667-3930 (USA)

SDS@PotashCorp.com - www.PotashCorp.com

1.4. Emergency telephone number

Emergency number: 800-424-9300
CHEMTREC

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

GHS-US classification
Skin Irrit. 2 H315
Eye Irrit. 2A H319
STOT SE 3 H335

2.2. Label elements

GHS-US labelling
Hazard pictograms (GHS-US):
Monocalcium Phosphate (21% P)
Safety Data Sheet

Signal word (GHS-US): Warning
Hazard statements (GHS-US):
- H315 - Causes skin irritation
- H319 - Causes serious eye irritation
- H335 - May cause respiratory irritation

Precautionary statements (GHS-US):
- P261 - Avoid breathing dust
- P264 - Wash hands thoroughly after handling
- P271 - Use only outdoors or in a well-ventilated area
- P280 - Wear eye protection, face protection, protective clothing, protective gloves
- P302+P352 - IF ON SKIN: Wash with plenty of water
- P304+P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing
- P305+P351+P338 - IF in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
- P312 - Call a POISON CENTER/doctor if you feel unwell
- P332+P313 - If skin irritation occurs: Get medical advice/attention
- P337+P313 - If eye irritation persists: Get medical advice/attention
- P362 - Take off contaminated clothing
- P403+P233 - Store in a well-ventilated place. Keep container tightly closed
- P405 - Store locked up
- P501 - Dispose of contents/container according to local, regional, national, and international regulations

2.3. Other hazards
Hazardous to the aquatic environment.

Per OSHA 29 CFR 1910.1200(b)(5)(iii) labelling is not required for this product as labelling is covered under the requirements of the Food and Drug Administration (FDA) or the US Department of Agriculture (USDA).

3.2. Mixtures
Not applicable

SECTION 4: First aid measures

4.1. Description of first aid measures
First-aid measures general : If medical advice is needed, have product container or label at hand.
First-aid measures after inhalation : If inhaled, remove to fresh air and keep at rest in a position comfortable for breathing. Give oxygen or artificial respiration if necessary. Obtain medical attention if breathing difficulty persists. Keep warm.
First-aid measures after skin contact : Wash skin thoroughly with mild soap and water. Obtain medical attention if irritation develops or persists.
First-aid measures after eye contact : Obtain medical attention if irritation develops or persists. Immediately rinse with water for a prolonged period (at least 15 minutes) while holding the eyelids wide open.
First-aid measures after ingestion : Do not induce vomiting. If victim is conscious and alert, give 4 to 8 ounces of water or milk. Do not give anything by mouth to an unconscious person. Get medical advice and attention if you feel unwell. Seek medical attention if a large amount is swallowed.

4.2. Most important symptoms and effects, both acute and delayed
Symptoms/injuries : Irritation to eyes, skin and respiratory tract.
Symptoms/injuries after inhalation : Inhalation of a large amount of dust may cause respiratory irritation with difficulty in breathing, sore throat, and cough.
Symptoms/injuries after skin contact : May cause skin irritation.
Symptoms/injuries after eye contact : May cause serious eye irritation.
Symptoms/injuries after ingestion : If a large quantity has been ingested : Gastrointestinal irritation. Abdominal pain. Diarrhea. Nausea. Vomiting.

4.3. Indication of any immediate medical attention and special treatment needed
If ingested by a child, water or milk should not exceed 4 ounces.

SECTION 5: Firefighting measures

5.1. Extinguishing media
Suitable extinguishing media : Not flammable. Use extinguishing media appropriate for surrounding fire.
Unsuitable extinguishing media : None known.

5.2. Special hazards arising from the substance or mixture
Fire hazard : Material is a non-flammable inorganic salt. Under conditions of fire this material may produce: Oxides of calcium. Oxides of phosphorus.
Explosion hazard : Product is not explosive.
Reactivity : Stable at ambient temperature and under normal conditions of use.

5.3. Advice for firefighters
Firefighting instructions : Keep upwind. Not flammable.
Protection during firefighting: Wear full fire-fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA).

Other information: Do not allow run-off from fire fighting to enter drains or water courses.

**SECTION 6: Accidental release measures**

6.1. Personal precautions, protective equipment and emergency procedures

6.1.1. For non-emergency personnel

Protective equipment: Wear suitable protective clothing, gloves and eye/face protection. Tight fitting goggles should be worn in dusty areas to reduce dust exposure to the eyes.

Emergency procedures: Collect as any solid. Ventilate area.

6.1.2. For emergency responders

Protective equipment: Wear suitable protective clothing, gloves and eye/face protection.

Emergency procedures: If possible, stop flow of product. Contain and collect as any solid. Ventilate area.

6.2. Environmental precautions

If spill could potentially enter any waterway, including intermittent dry creeks, contact the U.S. COAST GUARD NATIONAL RESPONSE CENTER at 800-424-8802. In case of accident or road spill notify CHEMTREC at 800-424-9300. In other countries call CHEMTREC at (International code) +1-703-527-3887.

6.3. Methods and material for containment and cleaning up

For containment: If contaminated with other materials, contain and collect as any solid in suitable containers. Do not allow into drains or water courses or dispose of where ground or surface waters may be affected. Prevent large quantities from contacting vegetation.

Methods for cleaning up: Recover the product by vacuuming, shoveling or sweeping and place in appropriate container to be disposed at an appropriate disposal facility according to current applicable laws and regulations and product characteristics at the time of disposal. Provide adequate ventilation. Avoid generation of dust during clean-up of spills. If uncontaminated, recover and reuse product. Practice good housekeeping – spillage can be slippery on smooth surface either wet or dry.

6.4. Reference to other sections

No additional information available

**SECTION 7: Handling and storage**

7.1. Precautions for safe handling

Precautions for safe handling: Handle in accordance with good industrial hygiene and safety procedures. Do not eat, drink or smoke when using this product. Use recommended personal protective equipment. Avoid contact with skin and eyes. Avoid breathing dust.

Hygiene measures: Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure.
7.2. Conditions for safe storage, including any incompatibilities

Storage conditions: Store tightly closed in a dry, cool and well-ventilated place. Protect from moisture. Store away from fire hazards.

Incompatible materials: None known.

7.3. Specific end use(s)

Animal and Poultry Feeds

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

<table>
<thead>
<tr>
<th>Monocalcium Phosphate (21% P)</th>
<th>USA ACGIH (nuisance dust)</th>
<th>ACGIH TWA (mg/m³)</th>
<th>10 mg/m³ – inhalation particulate</th>

<tbody>
<tr>
<td>USA OSHA (nuisance dust)</td>
<td>OSHA PEL (TWA) (mg/m³)</td>
<td>5 mg/m³ – respirable (particulate)</td>
<td></td>
</tr>
</tbody>
</table>

8.2. Exposure controls

Appropriate engineering controls: Ensure adequate ventilation, especially in confined areas. Local exhaust or other ventilation should keep dust below Permissible Exposure Limits.

Personal protective equipment: Gloves. Safety glasses. Protective clothing.

Hand protection: Impermeable protective gloves.

Eye protection: Protective goggles. Tight fitting goggles should be worn in dusty areas to reduce dust exposure to the eyes.

Skin and body protection: Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Wear suitable protective clothing. Wash contaminated clothing before reuse.

Respiratory protection: Use NIOSH-approved air-purifying or supplied-air respirator where airborne concentrations of dust are expected to exceed exposure limits.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

- Physical state: Solid
- Appearance: Granules
- Colour: Gray
- Odour: Odourless
- Odour threshold: No data available
- pH: 2.8 (10% slurry)
- Molecular weight: 234.05
- Relative evaporation rate (butylacetate=1): No data available
Monocalcium Phosphate (21% P)

9.2. Other information
No additional information available

SECTION 10: Stability and reactivity

10.1. Reactivity
Stable at ambient temperature and under normal conditions of use.

10.2. Chemical stability
Stable at standard temperature and pressure.

10.3. Possibility of hazardous reactions
Hazardous polymerization will not occur.

10.4. Conditions to avoid
Protect from moisture.

10.5. Incompatible materials
None known.

10.6. Hazardous decomposition products
Under conditions of fire this material may produce: Oxides of calcium. Oxides of phosphorus.
Monocalcium Phosphate (21% P)

Toxicity: Non-toxic to aquatic organisms as defined by USEPA.

Degradation Products:
Biodegradation: No data available
Photodegradation: No data available
SECTION 13: Disposal considerations

13.1. Waste treatment methods

Sewage disposal recommendations: This material is hazardous to the aquatic environment. Keep out of sewers and waterways.

Waste disposal recommendations: Place in an appropriate container and dispose of the contaminated material at a licensed site.

Additional information: Dispose of waste material in accordance with all local, regional, national, and international regulations.

SECTION 14: Transport information

In accordance with DOT / TDG / ADR / RID / ADNR / IMDG / ICAO / IATA

14.1. UN number

No dangerous good in sense of transport regulations.

14.2. UN proper shipping name

Not applicable

14.2 Additional information

Other information: No supplementary information available.

Overland transport

No additional information available

Transport by sea

No additional information available

Air transport

No additional information available

SECTION 15: Regulatory information

15.1. US Federal regulations

| Monocalcium Phosphate (21% P) | SARA Section 311/312 Hazard Classes | Immediate (acute) health hazard |
| Calcium hydrogen phosphate (7757-93-9) | Listed on the United States TSCA (Toxic Substances Control Act) inventory |
| Calcium dihydrogen phosphate (7758-23-8) | Listed on the United States TSCA (Toxic Substances Control Act) inventory |

15.2. US State regulations

No additional information available

15.3. Canadian regulations

| Monocalcium Phosphate (21% P) | WHMIS Classification | Uncontrolled product according to WHMIS classification criteria |
Monocalcium Phosphate (21% P)

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all of the information required by the CPR.

**SECTION 16: Other information**

Other information: This product is TSE/BSE (Transmissible Spongiform Encephalopathy/Bovine Spongiform Encephalopathy) free. No animal constituents are used in the manufacture of Defluorinated Phosphate for PCS Sales (USA) Inc. Our product is created through a chemical process.

NFPA health hazard: 2 - Intense or continued exposure could cause temporary incapacitation or possible residual injury unless prompt medical attention is given.

NFPA fire hazard: 0 - Materials that will not burn.

NFPA reactivity: 0 - Normally stable, even under fire exposure conditions, and are not reactive with water.

Full text of H-phrases:

| Eye Irrit. 2 | Serious eye damage/eye irritation Category 2 |
| Skin Irrit. 2 | skin corrosion/irritation Category 2 |
| STOT SE 3 | H335 – May cause respiratory irritation |
| H315 | Causes skin irritation |
| H319 | Causes serious eye irritation |
