SMARTNUTRITION® MAP  MST™

SMALL IN SIZE

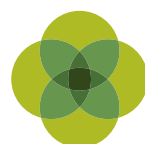

BIG ON PERFORMANCE

AVAILABILITY • EFFICIENCY • QUALITY • STORAGE • APPLICATION

New Smart Nutrition MAP+MST is the latest, most efficient system for delivering sulfur and phosphate to meet your *crop's needs* and *maximize* production.

BENEFITS OF SMART NUTRITION MAP MST:

-  Smaller particle size means quicker sulfur oxidation and earlier availability to the crop
-  Decreased risk of sulfur leaching
-  Slow release keeps sulfur available throughout the growing season
-  Reduced salt index delivers more seed row safety
-  Safe to handle and store
-  High analysis for decreased application rates
-  Enhanced product combining P + S
-  Homogenous distribution means granules have consistent nutrient percentages
